

Independent Limited Assurance Report to SEFE GmbH

ERM Certification and Verification Services Limited (“ERM CVS”) was engaged by SEFE Marketing and Trading Ltd (“SEFE”) to provide limited assurance in relation to the selected information set out below and presented in the SEFE’s 2023 Sustainability Report (the “Report”).

Engagement summary

<p>Scope of our assurance engagement</p>	<p>Whether the 2021, 2022 and 2023 data for the for the following selected disclosures (the “Selected Information”) as indicated below are fairly presented in the Report, in all material respects, in accordance with the reporting criteria.</p> <ul style="list-style-type: none"> • Total Scope 1 GHG emissions [metric tonnes CO₂e] • Total Scope 2 (location-based) GHG emissions [metric tonnes CO₂e] • Total Scope 2 (market-based) GHG emissions [metric tonnes CO₂e] • Total Scope 3 GHG emissions [metric tonnes CO₂e] consisting of the following categories only: <ul style="list-style-type: none"> • Category 1. Purchased Goods and Services • Category 2. Capital Goods • Category 3 – Fuel- and Energy-Related Activities Not Included in Scope 1 or Scope 2 • Category 4 – Upstream Transportation and Distribution • Category 5 – Waste Generated in Operations • Category 6 – Business Travel • Category 7 – Employee Commuting • Category 9 – Downstream Transportation and Distribution • Category 11 – Use of Sold Products • Category 15 - Investments <p>Our assurance engagement does not extend to information in respect of earlier periods or to any other information included in the Report.</p>
<p>Reporting periods</p>	<ul style="list-style-type: none"> • 1 January 2021 – 31 December 2021 (2021) • 1 January 2022 – 31 December 2022 (2022) • 1 January 2023 – 31 December 2023 (2023)
<p>Reporting criteria</p>	<ul style="list-style-type: none"> • SEFE’s Greenhouse Gas Emission Inventory & Calculation Methodology (pages 37 - 40 of Sustainability Report) • IPIECA’s Petroleum Industry Guidelines for reporting GHG emissions, 2nd edition, 2021 • The GHG Protocol Corporate Accounting and Reporting Standard (WBCSD/WRI Revised Edition 2015) for Scope 1 and Scope 2 GHG emissions • GHG Protocol Scope 2 Guidance (An amendment to the GHG Protocol Corporate Standard (WRI 2015)) for Scope 2 GHG emissions • The Corporate Value Chain (Scope 3) Accounting and Reporting Standard (WBCSD/WRI 2011) for Scope 3 GHG emissions
<p>Assurance standard and level of assurance</p>	<p>We performed a limited assurance engagement, in accordance with the International Standard on Assurance Engagements ISAE 3000 (Revised) ‘Assurance Engagements other than Audits or Reviews of Historical Financial Information’ issued by the International Auditing and Assurance Standards Board.</p> <p>The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for a reasonable assurance engagement and consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.</p>

Engagement Summary (continued)

Respective responsibilities

SEFE is responsible for preparing the Report and for the collection and presentation of the information within it, and for the designing, implementing and maintaining of internal controls relevant to the preparation and presentation of the Selected Information.

ERM CVS' responsibility is to provide a conclusion to SEFE on the agreed scope based on our engagement terms with SEFE, the assurance activities performed and exercising our professional judgement.

Our conclusion

Based on our activities, as described below, nothing has come to our attention to indicate that the 2021, 2022 and 2023 data and information for the disclosures listed under 'Scope' above are not fairly presented in the Report, in all material respects, in accordance with the reporting criteria.

Our assurance activities

Considering the level of assurance and our assessment of the risk of material misstatement of the Selected Information a multi-disciplinary team of sustainability and assurance specialists performed a range of procedures that included, but was not restricted to, the following:

- Evaluating the appropriateness of the reporting criteria for the selected information;
- Interviewing management representatives responsible for managing the selected issues;
- Interviewing relevant staff to understand and evaluate the management systems and processes (including internal review and control processes) used for collecting and reporting the selected disclosures;
- Reviewing of a sample of qualitative and quantitative evidence supporting the reported information at a corporate level;
- Performing an analytical review of the year-end data submitted by all locations included in the consolidated 2021, 2022 and 2023 group data for the selected disclosures which included testing the completeness and mathematical accuracy of conversions and calculations, and consolidation in line with the stated reporting boundary;
- Evaluating the conversion and emission factors and assumptions used;
- Reviewing the presentation of information relevant to the scope of our work in the Report to ensure consistency with our findings.

The limitations of our engagement

The reliability of the assured information is subject to inherent uncertainties, given the available methods for determining, calculating or estimating the underlying information. It is important to understand our assurance conclusions in this context.

Our independence, integrity and quality control

ERM CVS is an independent certification and verification body accredited by UKAS to ISO 17021:2015. Accordingly we maintain a comprehensive system of quality control, including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements. Our quality management system is at least as demanding as the relevant sections of ISQM-1 and ISQM-2 (2022).

ERM CVS applies a Code of Conduct and related policies to ensure that its employees maintain integrity, objectivity, professional competence and high ethical standards in their work. Our processes are designed and implemented to ensure that the work we undertake is objective, impartial and free from bias and conflict of interest. Our certified management system covers independence and ethical requirements that are at least as demanding as the relevant sections of the IESBA Code relating to assurance engagements.

ERM CVS has extensive experience in conducting assurance on environmental, social, ethical and health and safety information, systems and processes, and provides no consultancy related services to SEFE in any respect.
